Budgetary Reports

‘20% OF YOUR CUSTOMERS BRING IN 80% OF YOUR BUSINESS’

Pareto Rule

“ In marketing it was discovered that only 20% of your customers bring in 80% of your business. Whilst the actual percentiles differ depending on your industry the truism still holds, that a minority of your customers bring in the bulk of your business. That said it is important to have an intelligent accounting software that identifies that percentile and once identified. It is up to you as the business owner to keep that percentile happy and grow your sales ”

ANESU MUvingi
QuickBooks Consultant

Simply Accounting

WHAT IS MANAGEMENT OF ACCOUNTING?

1. As a business trying to grow you defiantly need financial accounting. This branch of accounts tells you historically how well you have performed and based on this information you are supposed to make intelligent choices. So you are looking back through the rear view mirror to chart how best to move forward. Not bad but can you do better?

Yes. With QuickBooks you get management accounting as well as the traditional financial accounting. Get notifications that your stock levels have reached a critical point and need restocking, draft letters to your customers through QuickBooks reminding them to pay up by merely pressing a button. Send e-statements and get a clear dash board of which of your customers are supposed to be paying you this week and those whose accounts are overdue.

WHY USE SIMPLY ACCOUNTING AND NOT OTHER QUICKBOOKS DISTRIBUTORS ?

- We are the only distributor offering a 100% 60-Day money back guarantee if the client is not satisfied
- We offer 30 day free site support.
- Our consultants are not just tech smart, they are accountants. So they speak a language you can understand and make sure that your system offers you the best international reports
- We offer affordable rates across all our products
- We do not charge customers for calling through and requiring assistance
- With over 3 years and 140 companies we have extensive experience across several business industries from high schools, through to manufacturers right down to retailers having several branches.
- We have a easy to follow referral foot print .

To learn more about our great service you can visit our website and view our testimonial pages from some of our clients.
